

14 foot Dome, collapsed. Should be able to pop back up. I could not get all the bolts out because I was working on my own. Will need a 9/16 or 14mm deep well impact sockets and impact gun, some of the nuts seemed to be cross threaded. You will need someone on the outside to hold the bolt. I put a Tarp over the dome because I was taking out the hardware I could so you will need to get the white pail and some of the rope or Para cord in the trailer to bail out the water. There is spare nut and bolts to replace the bad ones. Also one of the inside glass panes of the double pane window is broken. Have a 3x3 sheet of plexiglass on site.

45 Foot Semi Trailer without wheels

2004 Chevy Blazer, runs good I haven't had an issue. Battery Disconnected, wrench in cab to connect
Sizes and counts are approximate for wood and steel (see pics)

Various sizes of used plywood

Partial bunk of 2x4x16

13 foot I beams

Box beams

15 12x12x16' plus 5 used on the base for dome

Approx 100 6x6x8 told were oak timbers

4x6x8 timbers some with 2x6x8 nailed to

12x12x4' timbers

2x6x8' timber

Landscape timbers

Various lengths of 2x4

Pile of scrap wood

6x6x12'

Skids

Steel plate

Two pallets of 5000 psi concrete mix

Ladder

Power tools, corded and battery Saws, Drills, corded angle grinder, (Kobalt cordless kit (saw, saws all, drill, light, 2 batteries that don't hold a charge long)

30 plus solar batteries (some need charged) Need to be wired together I have just been using one at a time and charging with solar

3 solar panels with regulator

Steel table

3 folding tables

2 Coolers

3 water jugs

Black 5 gallon Pails with covers for water

Low watt electric heaters

Multimeter

8 two foot I beams

Roll of bungee cord, para cord, zip ties, Rope

9x7 tent

2000/1700 Champion watt generator/inverter new

Chains saw and spare parts

Canned premix fuel for saw and weed eater

Mosquito fogger

Weed eater, new spark plug not installed
Fuel cans
Denatured alcohol
Propane 1 lb and larger
Propane heater Mr buddy new
Fan
4 office type chairs, two still boxed
Folding chairs
Three tool kits, dewalt, craftsman, generic
Tote of tools, hammers, mallets, screwdriver set, drill bits, super bar, channel locks, lineman pliers, etc
Sleeping bags, inflatable mattress, pillows, blankets, 2nd inflatable leaks
Kitchen ware pots pans dishes utensils
Paper products TP, paper towels, cups, bowls, plates, foil, disposable utensils
Three inverters. 400 (for electric fence, 1500, 2000 (need to use the 2000 watt one for the plug in tools or generator)
Electric fence supplies, insulators and wire, energizers
Wire and connectors for solar batteries
Soldering iron and accessories
Folding work bench
Refillable 1 lb propane tank kit
Fire extinguishers
Metal fence post for electric fence corners and gate
plastic posts for electric fence,
Small Gas grill,
Small charcoal grill,
charcoal
Fire starters
matches
Two Fishing poles salmon and trout
Timber Jack,
timber hook
Indoor Bug zappers
