NOTES

- The tracts are subject to a 50 foot pedestrian easement along the ordinary high water line of any water frontage of any part.
- The areas as shown are computed from resurvey data or a combination of resurvey & record data.
- Tracts fronted by the section lines are subject to a 50 foot easement each side of the section which is reserved to the State of Alaska for public highways under AS 19.10.010.
- Bearings to bearing trees are true.
- The unadjusted A.S.L.S. No. does not appear on any monuments set this survey.
- Solid lines as shown are surveyed, dashed lines are projected.
- The natural meanders of the line of (mean high water or ordinary high water) forms the true bounds of the tracts. The approximate line of (mean high water or ordinary high water) as shown, is for survey computations and does not, with the true tracts corners being on the extension of the tract side lines and their intersection with the natural meanders.
- All water boundaries as shown are plotted locations from aerial photography.
